
SVG2Shenzhen - Layer Explanation

- **Drill** the drill holes
- **F.Silk-disabled** the front silkscreen layer (labels)
- **F.Mask-disabled** the front soldermask
- **F.Cu** the front copper layer
- **B.Silk-disabled** the back silkscreen layer
- **B.Mask-disabled** the back soldermask
- **B.Cu-disabled** the back copper layer
- **Edge.Cuts** the outline of the board
- **[fixed]BG** the layer for the white background (not needed)
- **Layer1** leftover from Inkscape (not needed)

If one wants to use a specific layer one has to rename the layers without the “-disabled”.
